## BUSHMASTER XM15 E2S 16" BARRELED CARBINES

Bushmaster Carbines offer light weight, compact size, balanced swing weight, and great accuracy from their chrome lined, Chrome Moly steel barrels (16" length above and 14.5" Bbl. length in the AK Carbines below). Six Position TeleStocks, Bushmaster forged aluminum receivers, carbine length "shorty" handguards, and 30 round magazines round out the features of these versatile carbines. The M16A2 sight system is fitted - featuring dual aperture rear sights (windage adjustable to 1/2 M.o.A. and 1 M.o.A. for elevation, with a 300 - 800 meter range). Bushmaster Carbines are shipped in a lockable, Bushmaster Carrying Case, and include 30 Round Magazine, Operators Safety and Instruction Manual, Orange Safety Block, and Black Web Sling.

## BUSHMASTER .450 RIFLE

This powerful cartridge - developed in affiliation with Hornady - is tamed by the AR type gas operating system so that recoil is reduced to a heavy thump, and second shot control is retained. The Cartridge is adapted from a 6.5mm - .284 case with necking cut off to accommodate the 250 Grain Hornady SST Flex Tip .450 caliber bullet. AR type magazine boxes are utilized in the Bushmaster .450, and are fitted with a blue, single stack follower due to the diameter of the cartridge. With bullet velocity of 2200 fps, accuracy out to 200 yards is exceptional with stopping power ample to take any North American large game. The Chromoly Steel Barrels are rifled 1 turn in 24" and Chrome lined in both Bore and Chamber for exceptional durability and ease of maintenance. Free Floating Aluminum Forends help deliver optimum accuracy - rifle length is vented for cooling. Forged aluminum receivers; A2 pistol grip and solid A2 buttstock with trapdoor storage compartment are standard features. All operating controls are the same as any AR type rifle, and the Bushmaster .450s are shipped with one 5 round magazine, a black web sling, operators safety manual, and orange safety block in a lockable hard plastic carrying case.
